

Unscramble these letters to find a fruit that grows wildly inside and especially outside of these walls.

ARBSRIKCELEB

Can you guess the other name for it:

Can you find any herbs?

If so write down their names here:

What food do they taste good with?

See if you can find anything winged whilst walking around the garden
Write down their names - what plants do they seem to be attracted to?

See if you can find this brick pattern where the old brick wall meets the new.

Why do you think this new wall section was built?

How many bricks do you think it took to build the new wall?

TRAIL C. AND S. QUIZ

All you need is a pen, curiosity and a bit of imagination!
Suitable for any age and accompanied children

Explore the historic walled garden, a haven for all sorts of interesting flora, fauna and veg on this imaginary, sensory, educational trail. There is no set route, just explore and have fun. All we ask is that you keep to the path. Answers can be dependant on the season you explore.

What do you think 'bohemia' means?

Why do you think this area was given such a name?

How did the garden space make you feel when you first walked through the door? Describe how you are feeling right now in the garden...any difference?

Find the doorway to nowhere.
Imagine what could have been beyond the door and draw/write it here:

Find the hugul kultur.
Write down why it's a good idea.

Find the sculpture. What do you think she is made from?

What could she be reading? Write your ideas here.

Peaches were to be found here in 1841.
What can you find today in terms of fruit trees?

In the 1800s this walled garden was full of fruit trees, but why? Who was it for?

Name the most prominent tree within the garden:

What woodland animals do you think visit the garden? What time of the day would they visit?

Take a seat in the willow arbour
What can you hear right at this moment? Write down nature noises and the contrast of man made noise; which do you prefer?

See if you can find this mosaic circular stone created from pieces found in the garden from long ago. Where have these old pieces come from?

People work hard to get the garden looking as good as it does.
What is under our feet working just as hard that has lived on earth for 600 million years!?

Take a walk on the wild side - see if you can spot an area of the walled garden which is not as cultivated and identify any weeds!
Draw what you think this garden would look like if left alone. Think about outside the walls and how the landscape looks different and why?

Facing the main door, standing inside the garden, try to work out where the NORTH wall is without using a compass/looking at a map.

Tread carefully - what bugs can you find easily whilst following the path? Make a list and think what area of the garden would make a good bug hotel.
